## Upcycled bottle opener

Posted on [15 november 2011](#)

Yesterday I received this wonderful unique bottle opener from my friends in Tennessee, Chattanooga USA. Made from 100% Recycled Bicycle Rims. Who needs a dumpster when you can upcycle? Utilize this bottle opener for a nice ale or the champagne of beers ... we don't judge.

Directions: Cap should be opened with inside lip or "bead" of rim. Enjoy.
